■ What's the catch?

There isn't one.

There's no obligation for the seller to engage us for their conveyancing, and no hidden costs for you or your clients.

We're offering this service to support our clients and the broader real estate industry through this regulatory change. It's just one more way we're staying ahead of the curve and doing what we've always done:

- ✓ Keeping conveyancing simple
- ✓ Making processes streamlined
- ✓ Delivering services that are cost-effective

We believe helping sellers get disclosure right from the start is better for everyone - especially agents. It means fewer delays, fewer legal issues, and smoother paths to settlement.

Liability is limited by a scheme approved under professional standards legislation
